

International School SAIGON PEARL

Elementary & Early Years

Dear prospective families,

Welcome to International School Saigon Pearl (ISSP)!

We accept applications from students of all nationalities who would benefit from our educational program and whose parents share the School's philosophy and objectives. Admission is granted to a student when it has been determined that the School has an appropriate program and resources to meet that individual's learning needs.

Applications for both immediate and future entry are considered at any time throughout the year. If a waiting list for any grade is necessary, qualified applicants will be admitted according to established policies on priority.

APPLICATION PROCEDURES

Applicants for admissions to ISSP are strongly encouraged to apply as early as possible to avoid being placed on a wait list.

Our admission procedures are essential for the correct placement of new students, and are designed to allow for the smooth transition of students. It is also important that teachers are informed well in advance of new students joining their classes, in order to allow sufficient preparation time to welcome and settle the student.

An English as an Additional Language (EAL) interview may be required if applying for Kindergarten - Grade 5 to measure your child's English language proficiency. This will help the School determine and prepare the appropriate level of EAL support for your child. If a need for specialized support (SEN - Special Educational Needs) is identified in the application documentation, further interviews may be required.

It is necessary to complete the following procedures prior to student attendance:

1	Complete and submit application form. Admissions fee is paid if a place is available.
2	School reports/ transcripts are reviewed. When required, the Academic Leadership reviews student applications for areas requiring attention; special, additional or medical needs.
3	Head of School reviews applications and provides approval for admission. A further interview may be requested if further information is required.
4	Students and parents/guardians are notified of student's acceptance by the Admissions office.
5	Medical and vaccination records are submitted and reviewed before enrollment date.
6	Confirmation of Enrollment with information regarding start date will be sent to parents. Accounting will issue a debit note for the Tuition Fees.
7	Classroom teachers and subject specialist teachers are notified of the student's placement and start date.
8	Within the first few weeks, the classroom teacher will informally review the transition of your child into the school to determine placement correctness. For new students enrolling in Kindergarten to Grade 5, an EAL assessment may be conducted so the classroom teacher can prepare the level of support required. Where considered necessary, teachers will follow up with the Head of School and parents to discuss any placement issues or concerns.

PLACEMENT REQUIREMENTS

Students are accepted throughout the year but will be placed in a grade or class according to their birth date and the determination made by the administration and relevant staff. The Head of School's decision in such matters will be final. The placement will reflect the student's previous educational experience, age, physical and emotional maturity, language proficiency, academic needs and time of enrollment. Student records must be made available prior to final placement and further interviews may be requested and conducted as necessary.

In exceptional circumstances, this initial placement may be tentative and the school may advise a change of class after the child's abilities have been thoroughly observed in class during the two or three weeks following admission.

Students entering the school after the start of any given school year will be placed in the grade level equivalent to the current grade placement in their previous school or that which they have just completed. In the later case, promotion to the next grade level will be effective from the next school year in August.

For a student to be placed in a grade higher than the age indicated, clearly demonstrable superior academic and physical maturity, coupled with social maturity, must exist and be judged so by the school. Such advanced placement is only given under truly exceptional circumstances and with the written approval by the Head of School, and usually only after assessment by the Head of School in the age-appropriate grade.

SPECIAL NEEDS

The school has limited resources for students who have physical or learning difficulties and the curriculum may not cater to their needs. Admission, in such cases, is determined by the school on a case by case basis.

The school reserves the right, following admission, to discontinue the enrollment of a student at any time if it becomes evident that the school was misinformed regarding any application documentation or it becomes evident that the school does not have the resources to address successfully the individual needs of that student.

MEDICAL REPORT

It is a requirement that each student applying for admission to the school undergo a medical examination using the ISSP medical examination form. The school reserves the right to discontinue the enrollment of a student at any time if it becomes evident that the school was misinformed regarding any medical documentation, a student provides a risk of serious infection to others, or it becomes evident that the school does not have the resources to address the individual needs of a student.
