Our Camp Program

Set within ISSP Early Years department and outdoor play spaces, children will continue their social, emotional, physical, cognitive and language development through a multi-activity program.

Operated by our Early Years teachers, children will participate in sensory and inquiry-based activities, Smart Steps, water activities, cooking, art, and much more!

- **Young Scientists** *(For children from 5 – 8 years of age)*

Children are always hungry to find out how things work and affect the world around them, and to enjoy the process. At ISSP, your child will always remember their World of Science camp because it will be exciting and hands-on ... and 100% safe, under expert supervision. Our weekly themes are designed to stretch knowledge, understanding, imagination and curiosity, with unbridled contributions and questions welcomed.

- **Global Innovators** *(For children from 9 – 11 years of age)*

With technology moving at such a rapid pace and touching everybody's lives to some extent or another, there is a strong case for children to understand and appreciate how it works, from a young age. Our Tech Savvy camp provides a practical introduction to some of the STEM (or STEAM) basics, ensuring fun and development of valuable life skills at the same time.
