Elementary & Early Years

COGNITA

Together with Camp Asia - a part of Cognita Schools Group, ISSP are delighted to introduce the **Summer Program** for all children from **18 months - 11 years of age**.

Our four-week (20 days) camp is divided into weekly themes. Each theme stands alone as a unique project-based learning experience. Students will interact with the weekly theme through a fun mix of sports, team-building activities, outdoor games, art classes and weekly projects.

The goal of each weekly theme is to expose students to unique learning opportunities. These individual learning experiences will help guide students on their larger journey as lifelong learners.

**6.8 mil VND** per week  
Early Bird Discount from  
**10%** until  
**19th April 2019**

2, 3, 4-week camps  
available from  
**17th June - 12th July**

## Why Camp Asia at ISSP?

- **Building memories and friends from all over the world**

*ISSP Camp Asia 2019 host children from all over the globe (currently we had 28 different countries represented!). Children come away from our camps with new pals from every continent (who often become lifelong friends)*

- **Camp allows for a deep dive into new skills**

*Some of us take years to realise what we like because we just never tried it when we were younger. We think giving kids the chance to find one of their passions while they're still young is invaluable*

- **Program is internationally-recognized from early years to elementary**

*ISSP is the only international elementary, early years' school in HCMC to have the prestigious accreditation from the Council of International Schools (CIS) and the New England Association of Schools and Colleges (NEASC)*

- **A highly safe and structured learning environment**

*Students are taught in caring learning environments by qualified educators specializing in inquiry-led teaching. This, paired with international-standard safeguarding policies ensures that all children are safe and supported to reach their potential*

- **English-speaking camp**

*The most effective way to learn a language is to live it. We believe students can benefit from the extra English language support in a safe, fun and supportive environment in International School Saigon Pearl*

### Mindfulness

Children will improve their empathy and awareness towards others and their environment, and build children's ability to self-regulate their emotions through breathing and other grounding techniques.

### Smart Steps

This move-to-learn space builds the body-brain connection that help children develop physical, cognitive, social, and emotional foundations for early learning.

## Key Camp Activities

### Sustainability

Children will develop their understanding about the impact that we have on our environment and global community, and what we leave for future generations. There will be activities on recycling, reusing, reducing, gardening that encourage to save water, conserve energy, smart shopping and produce sustainable food.

### Language Arts

Develop and improve your Language Arts skills which include the four main components of Listening, Reading, Speaking, and Writing. Rather than pen and paper activities, engaging tasks will be provided for children to play with words, make their own stories and participate in various games.

### Inspiring Play

Children are invited to use open-ended materials to play with. This gives them the confidence to explore and learn in a beautiful, inviting and challenging learning space. Their learning experiences come from their interaction and engagement with their environment, the materials and the people around them.
